Northern Lights and Winter Nights Aurora Borealis Tours - February/March 2017

A faint glow appears on the horizon. Slowly, soft curtains of colour shimmer across the northern sky. The colours bend and weave and slowly begin to fade. The night sky darkens again. You have just witnessed a display of awe-inspiring Aurora Borealis (the Northern Lights). Churchill is one of the best places in Canada to witness the Northern Lights. The programs to Churchill provide an exciting alternative for viewing the Northern Lights; watch the Arctic sky from the back deck of a wide-bodied, comfortable Tundra Buggy.

During the winter, a Tundra Buggy is moved to an appropriate area, far from the lights of the community and parked in a safe spot that provides an excellent backdrop for Aurora photos. The buggies are heated and have on-board washroom facilities. This exciting outing is different from any other viewing experience. You will also have the opportunity to glide across the snow-covered Tundra on a sled pulled by an experienced team of dogs and feel the sun on your face and wind in your hair during an interpretive snowshoeing afternoon.

Belugas, Birds, and Blooms Tours - July/August 2017

Most people know that to see polar bears in their natural habitat, they should visit Churchill during October and November. What many people don't know is that Churchill has just as much to offer during the summer months.

With as many as 3,000 beluga whales sighted in a day, Churchill is one of the best places in the world to view these gentle mammals. Often called sea canaries for their unusual vocalizations, these white whales arrive in the Churchill River estuary every summer looking for warmer water in which to give birth, feed, and shed their skins. Our boat tours feature onboard hydrophones that amplify the songs of the most vocal whales in the world. Travel across the Churchill River and explore historic Fort Prince of Wales with its 40-foot thick stone walls and 40 cannons. Step back in time and relive the early days of the fur trade.
